

4th Grade Newsletter

Math

In math class students are learning division with remainders. We are also, learning to solve multiplication and division word problems.

Reading

After finishing the book "Hollis Woods" students are working on their final project. Students have picked their favorite scene in the book and will be using imagination and creativity to make dioramas.

Science

We have just begun learning about magnets and all of their properties. We will continue to explore different ways magnets are made and what uses we can give them.

Social Studies

Students continue to learn about the states. We have just finished the Midwest and are now moving on to the Southwest.

Song of the month

We will be learning the song "Lift Every Voice", for Black History Month.
